Approved Estonian Taste 2000

Viru Valge is Estonia's most popular and trusted high-quality vodka with its own traditions, decades of experience and long history. The genuinely Nordic vodka is the oldest spirits trademark in Estonia.

Despite the deep roots and strong traditions of Viru Valge, today, for its production Liviko is using most up-to-date and modern solutions.

Viru Valge comes from the whitest of the countries. In summer nights, the sun only sets for a brief moment, and in winter, the ground rests under a white carpet of snow with the first frost veiling the clear bogpools in dazzling white.

There are no large factories or cities in Viru Valge's homeland, the local people are scattered miles away from each other and, as research confirms, the air they breathe is the cleanest in the world.

The water from the crystal-clear lakewater and the harvest from the rocky Nordic fields also yield the truly Nordic vodka Viru Valge.

PRODUCT RANGE

Alcohol content: 40% vol

Size	EAN	Packed by
50 ml	4740050002260	20
200 ml PET	4740050002338	10
